Adam Eakle of the KSL Outdoor show will be your host at the 2nd annual ice fishing party. No registration is required, just come and enjoy the winter festivities. Here's your chance to learn from some of the best ice fishermen around!

Mickey Anderson from Fish Tech and James Bradshaw and his Maniac crew will be on hand to give families tips on catching fish and how to rig their rods.

The DWR will be there to discuss Strawberry Reservoir, the fishery, and give anglers a chance to talk to the biologists face to face about Utah's most popular trout fishing destination.

Witness an ice rescue demonstration again this year. Learn techniques to keep you safe on the ice. The United Wildlife Cooperative will also be hosting youth from the Boys and Girls Club of Utah County this year. For most of these kids it will be their first experience with ice fishing. Members of the unitedwildlifecooperative.org, Bigfishtackle.com and Utahwildlife.net will be there to mentor these kids as they experience some of the best ice fishing Utah has to offer.

KSL Outdoors & the UWC will also have free hotdogs, hamburgers, chili, and hot chocolate for all the youth.
